

# Practice Exercise 1

## Clearing & Correcting

1. Enter 3252 and change to 3243  
Then add 635  
Clear 635 and change to 735  
Clear and change to subtract 735  
Calculate result 1. \_\_\_\_\_
2. Enter 36 add 47  
Change 47 to 45  
Clear and change to subtract 45  
Calculate result 2. \_\_\_\_\_
3. Enter  $\$1,365 + \$3,625 + \$2,350$   
Change  $\$2350$  to  $\$1,350$   
Plus  $\$295$   
Change  $\$295$  to  $\$296$   
Calculate result 3. \_\_\_\_\_
4. Enter  $795 - 236 + 38$   
Change 38 to 33  
Calculate result 4. \_\_\_\_\_

**Practice Exercise 1 continued:**

5. Stephanie was working on her checkbook balance. She started the month with \$1365.00. The following is a list of deposits and checks written. Calculate her total at the end of the month.

Hint: If you make an error when you are entering the amounts use the clear or backspace to correct instead of starting over.

Deposit	\$257.00
Check	\$ 62.15
Check	\$128.12
Check	\$136.25
Check	\$219.28
Deposit	\$ 48.50
Check	\$ 21.75
Check	\$918.99

5. Balance \_\_\_\_\_

6. Andrea was averaging her bowling score for last week. She scored the following:

138  
157  
202  
198  
185  
132  
192

Find her average score for the week.

Hint: If you make a mistake entering a score use the backspace or clear to re-enter any given score.

6. Average \_\_\_\_\_
